

# VizitCards Workshop Timeline

**Remember:** Take photos to document your process at each stage marked with a camera

Yellow steps are done individually

Green tasks are done as a group

- **Step 0: Getting set up** (7 minutes)
  - Introduce yourselves to your group members
  - **As a group:** Make **one** copy of the blank Google Slides deck and make sure all group members can access it:
    - <https://tinyurl.com/si649-workshop>

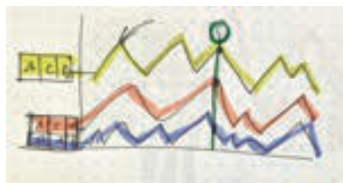

- **Step 1: Individual brainstorming and task selection** (10 minutes):
  - Read the problem description for this week (in lab folder on Canvas)
  - Individually, start brainstorming ideas for possible tasks, and write these down on blank index cards
  - Feel free to also look at some Domain Card ideas for ideas (<http://tinyurl.com/domain-card>)
  - Decide on at least **three tasks** you think are interesting, including at least one of your own, and write each one down on a blank index card

- **Step 2: Collectively choose tasks** (10 minutes)
  - Take turns presenting your three favorite tasks to your group
  - As a group, discuss and collectively decide on 4 tasks that you want to support

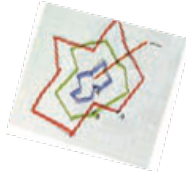

- **Step 3.1: Individual sketching** (10 minutes)
  - As fast as you can, sketch as many visualization ideas as you can, based on the selected tasks (okay if messy)
  - Optionally look at some Layout cards for ideas (<http://tinyurl.com/layout-card>)

- **Step 3.2: Sharing sketches** (8 minutes)
  - Share your best idea with your group

- **Step 4.1: Second round of individual sketching** (5 minutes)
  - Again, draw as many ideas as you can, matching ideas to the selected tasks
  - Borrow, remix, and steal from other people's ideas

- **Step 4.2: Second round of sharing sketches** (5 minutes)
  - Again, share your best idea with your group

- **Step 5: Final sketch** (15-20 minutes)
  - As a group, come up with a consensus sketch
  - This should be a **single cohesive design**, not a collection of individual sketches

Remember to take photos as you work, to upload to the shared slide deck!

#### **Immediately after the lab:**

- Everyone should finish uploading task ideas and sketches to the shared Google Slides deck for your group
- Once everyone has done so, share it with the GSI for your section
- **Make sure that you set the Share permissions on the Google Slides so that it can be viewed by anyone at the University of Michigan**
- There will be a follow up assignment posted, in which you will record a video as a group, describing your design process

Note: Just in case, the original URL for the blank slides is: <https://docs.google.com/presentation/d/1fyT--vImWDqb5OwElca4PAFT2zIBi0kisIDL93YyL4w/edit?usp=sharing>
